

EXTRA DIVIDENDS WILL BE PAID BY EWA AND WAIALUA

Last Three Months of year to
Bring Special Payments
to Stockholders

It was announced at the office of Castle & Cooke, Ltd., this morning, that the directors of the Ewa Plantation Company, at a meeting held yesterday, had declared extra dividends of 2 per cent each for the months of October, November and December, these being in addition to the regular monthly dividend now being paid of 1/2 of 1 per cent. This will make the dividend payable on the shares in this company 50 cents per month for the months mentioned. These extra dividends, together with the regular dividend heretofore declared, will make the total dividend paid by this company for the year 12 per cent.

It was further announced the directors of the Waialua Agricultural Company, Ltd., had also declared special dividends of 2 per cent, or \$2 per share each for the months of October, November and December. The payment of these three dividends, together with the one paid this month, will make the total dividend for the year paid by this company 3 per cent.

"PRESS" MATINEE AT POPULAR THEATER TODAY

"The Mexican Spy," another of the McRae pictures taken in Honolulu some months ago, will have its premier at the Popular theater this afternoon.

A special "press" matinee has been arranged by Manager Samuel Blair to which have been invited, besides representatives of the press, a few photo play experts.

This picture will be shown at the Popular in the near future, probably next week.

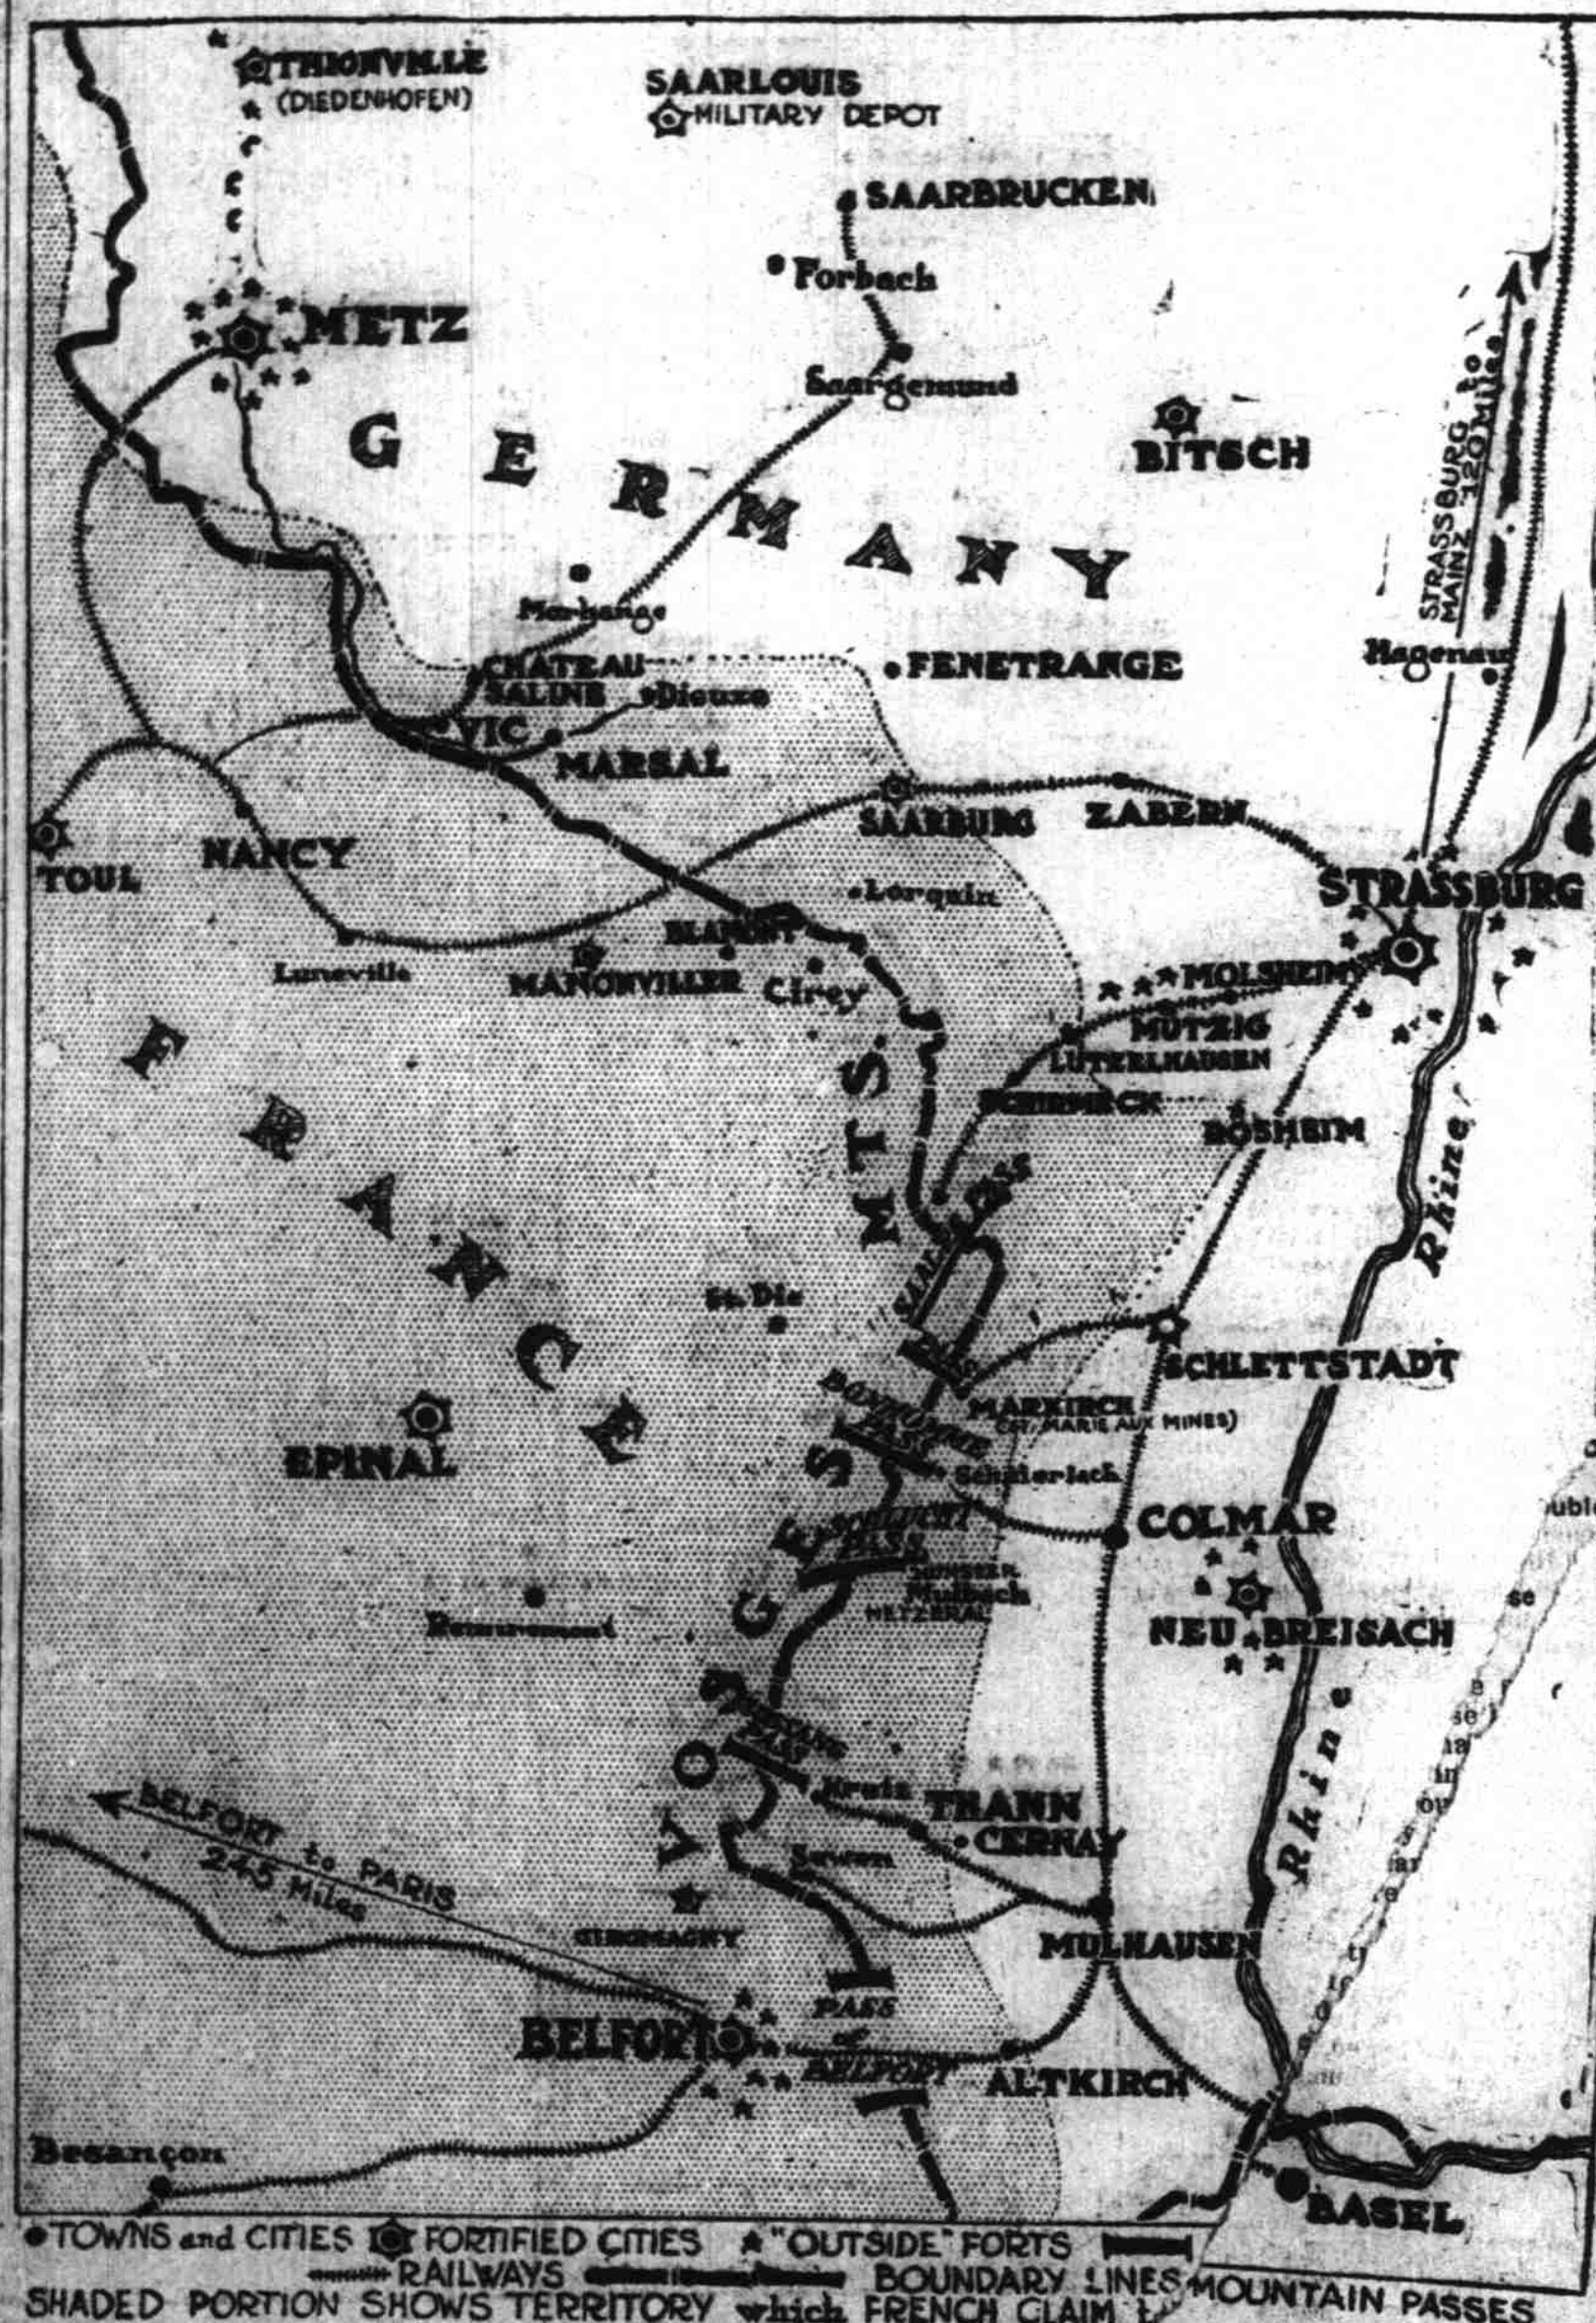

SUGAR

There was a sale of centrifugals, 96 degree test, in New York today affecting the Hawaiian basis, at 5.02 cents. This news was cabled to Alexander & Baldwin, together with the item that refined sugar was selling at 6.25c.

ED. J. NELL, will leave on the Sierra next Saturday for the coast on a two weeks' business trip.

The Republican Club of the first precinct of the fifth district will give a luncheon at Kaneohe ranch next Saturday afternoon. All the Republican candidates have been invited and all probably will be asked to speak.

WHERE HISTORY IS IN THE MAKING

MORE DIVIDENDS, BUT STOCKS SLUMP UNDER LOWER SUGAR PRICE

The directors of Ewa yesterday afternoon declared an extra dividend of 40 cents a share monthly for the coming three months, payable on the last day of each month. This is in addition to the regular dividend of 10 cents a share. Waialua directors at the same time declared a dividend of \$2 a share for the last three months of the year, payable on the 15th of each, thus continuing the dividend paid on September 15, which was the first this year for that company.

Under a still declining sugar market, there was considerable slumping of sugar stocks today. Ewa was the sole exception in a small volume of sales, it having advanced 1/2 point, no doubt owing to the extra dividends. Oha made a total decline of 3-8 and McBryde of 1/2 point. Hawaiian Commercial and Onomea each registered a drop of four points between boards. Pioneer fell off a point and Oahu 1/2. Oha's first quotation between boards was 5 for 20 shares, and next 1/2 lower for two lots of 20 each. On the board two lots of 50 each and one of 10 went at 4.75. McBryde sold down 3-8 in recess to 4.87 1/2 for 30 shares, dropping another 1/4 on the board for 50, 50 and 15 shares.

Onomea sold at 32 for 10 shares between boards, and Hawaiian Commercial at 32 for 30 shares. Brewery was steady at 17 for 25 shares reported. At the session, besides sales already noted, Oahu brought 19 for two lots of 20 shares each, and Pioneer 24.50 for 20 and 5 shares.

A meeting of the Hawaii Fair Commission, scheduled for one o'clock this afternoon, was postponed until Thursday of next week on account of the ceremonies at Kahuku which mark the opening of the local station of the Marconi Wireless Company of America.

POLICE SIFtings

Alleged a vagrant, Kahuku, was sent to the reef for one month following his appearance at the district court this morning.

Eight Japanese charged with gambling were found not guilty and discharged when brought before the district court this morning.

The charge of larceny by the police against Henry J. Jr., was stricken when called before District Magistrate Monsarrat this morning.

A delegation of police called to Desha Lane and a flying squad today, re-booked at central police station with being present, charged gambling.

Harbor Officer Campbell kept a sharp watch on the length of the harbor the entire large number of city while the board the several remain on now at the port. A steamer.

Joe Barteltes, a chauffeur, arrested upon a charge of taking an automobile while of taking an automobile, was brought before District Magistrate Monsarrat this morning.

Abrahamer, now facing a charge of larceny, was arrested following the death of Kahuku, who is alleged to have been run down by a motor vehicle, is now in the central police station, pending a preliminary hearing of his case before District Magistrate Monsarrat this morning.

John Williams has been placed under arrest, it being charged that he is an automobile along that portion of King street bounded by Fort and Punchbowl streets at a pace faster than 15 miles an hour. He will be taken to answer to the complaint before District Magistrate Monsarrat this morning.

John Long, hackman, whom the police allege was under the influence of liquor, figured in an accident last night on King, near Alapai street, in which the vehicle was much damaged, through collision with Rapid Transit car No. 52, then outward bound. The running board on the street car was partly demolished. Long was thrown to the pavement, but not seriously hurt.

LITTLE INTERVIEWS

J. J. SMIDY: I have not yet settled anything regarding the position in the U. S. marshal's office. I shall wait until I am actually in office.

A. L. C. ATKINSON—The Marconi wireless telegraph people have made a notable advance. They, too, have become "progressive" in the opening of their marvelous plant today.

C. P. MORSE—It will be an American-Hawaiian steamer that will smash all records for the transportation of pineapples from the islands to the east coast of the United States. The Missouriian will carry about 3000 tons of the fruit.

JOHN GUILD: The sudden depression in sugar prices is a little difficult to understand. Of course a recession after the recent strong advance was natural, but it doesn't look as if the market conditions should bring about so many drops in a few days.

CAPTAIN J. H. VON DAHLREIN—A German cruiser would have had little difficulty in taking possession of Tahiti and neighboring islands following the outbreak of the war. The French cruiser Montcalm was the only vessel belonging to the Allies reported in that part of the Pacific.

GEORGE A. DAVIS: As representative of Lionel A. R. Hart, whose petition for restoration of his civil rights has just been turned down by the governor, new and additional evidence will be produced attesting to the reformation of the applicant with a view of winning executive clemency.

EDWIN HUGHES—For the first time in many months the Beretania street pumping plant has been closed down during the day because of an abundance of water coming from other sources. The recent rains have filled the several reservoirs, giving an opportunity for making some necessary repairs to the plant machinery.

GEORGE N. BELMONT: I am inclined to believe that it will be a useless waste of time to await the arrival of the British steamer Makura on the present voyage from Sydney for Victoria and Vancouver. The vessel has undoubtedly passed to the eastward of Honolulu some days ago, the owners having no intention of sending the vessel into this port while it troops.

L. VON TEMPSKY, the Maui plantation man, was numbered with the passengers to arrive at the capital in the steamer Claudine this morning.

H. B. WELLER, representative for the Union Oil Company, has returned from a business trip to the island of Maui. He was a passenger in the steamer Claudine.

WALKS AND GOOD STREETS NEEDED BY POSTOFFICE

Circular Points Out What Public Must Do to Secure Extension of Service

Circular No. 10, issued by the first assistant postmaster-general and just received at the local postoffice, regarding the extension of city delivery, will doubtless be of interest to the patrons of the Honolulu postoffice from the fact that the order shows just what the public must do in order to get an extension of city delivery.

"In order to get an extension of delivery a city must have good streets and good lights in the districts where extension is desired, and persons must furnish adequate receptacles," said Postmaster Young this morning.

Young this morning, "The latter item is, perhaps, the most important as it saves a great deal of territory much."

Mr. Young's statement is corroborated by the fact that, in part, houses must exist as are required for the establishment, viz., that the streets shall be numbered, streets properly lighted and their names posted, there shall be good continuous walks and street crossings throughout the whole of the district which it is proposed to make delivery, and that the patrons shall be required to cut slots in their front doors or provide other suitable means for the receipt of mail. The receptacles to be placed at the street entrance where dwellings are more than 50 feet from the street."

Notices such as Circular No. 10, says Mr. Young, are sent out occasionally to the first-class postoffices throughout the United States to prevent any abuse of the service.

MAUI NEWS

[Special Star-Bulletin Correspondence] WAILUKU, Maui, Sept. 23.—Mrs. W. B. Deas and Miss Deas of Hana were passengers on last week's Claudine, taking the Matsonia from Honolulu for the coast, where they plan to make their home permanently.

The Nahiku Protestant Church is being thoroughly repaired by the Maui Aid Association, with which organization the members and their friends have deposited a large sum of money that has been slowly raised during the last ten years. Recently members of the church have made a tour of Central Maui and raised about \$300. On Tuesday of last week Rev. R. B. Dodge, treasurer of the Maui Aid Association and agent of the Hawaiian board, went to Nahiku, and outlined carefully the work of the repairs with the members of the church and the workmen. Members of the community have volunteered their services free of charge.

The engagement was announced recently of Miss Louise Pratt, daughter of Mr. Thomas Pratt of Paia, to Clay Smith of Lahaina, who is employed by the Pioneer Mill Company. The young people have been the recipients of many hearty congratulations and best wishes from their many Maui friends. Miss Pratt is continuing her work as kindergarten at the Baldwin House this year, where she is meeting with excellent success.

Patrick Cockett, manager of the Cornwell ranch, went to Honolulu Saturday in order to bring Mrs. Cockett back to Maui with him. They are expected on this week's Lurline. Mrs. Cockett has been at the Queen's hospital for two or three weeks, and is now much improved in health.

J. D. Dole, L. E. Arnold and K. B. Barnes, all of the Hawaiian Pineapple Company, were on Maui last week. They returned to Honolulu on Saturday's Claudine after having visited the Haiku Packing Company.

The Kahului kindergarten has opened with many children in attendance. Miss Marie Hoyt, head kindergarten, who was ill at the coast from typhoid, returned on the last Manoa in good health once more.

Capt. G. A. Pollister of Nahiku has been making a visit for several months to his old home in Maine. He is expected back in a few weeks, and will return by way of the Panama canal.

The Wailuku kindergarten has opened this year with a large number of pupils. Miss Drinkie is in charge, assisted by Miss Mary Hoffman and Miss Miss Otake.

Dorothy Anderson, daughter of Mr. and Mrs. W. A. Anderson of Nahiku, is attending school in Wailuku and living with Rev. and Mrs. Rowland B. Dodge.

Mrs. Geo. Trimble, manager of the Wailuku hotel, who has been seriously ill the last few weeks, is now out of danger.

Miss Latcher, who arrived recently from the coast, began her work as head of Baldwin House, Lahaina, last week.

PILES CURED IN 6 TO 14 DAYS.
PAZO OINTMENT is guaranteed to cure any case of Itching, Bleeding or Protruding Piles in 6 to 14 days or money refunded.—Made by PARIS MEDICINE CO., Saint Louis, U. S. of A.
